What VIA users are saying ...

"We are getting more demand for BYOD, and the VIA Collage fits that niche nicely. The encrypted signal is also a major plus."

John Delmont
Technical Sales, VMI

"Solves the biggest problem associated with BYOD"

Tim McCarthy
UCC Account Manager, Spinitar

EXPERIENCE TRUE-COLLABORATION™

Getting actual work done during meetings has never been easier.

WIRELESS
COLLABORATION
SOLUTIONS

Meet Smarter

Kramer's VIA product line lets you connect to meetings wirelessly with your own device, collaborate efficiently and engage effectively with all participants.

VIA delivers TRUE-Collaboration™ in conference rooms, boardrooms and huddle spaces.

VIA's Highlights

- Login with Wi-Fi or LAN
- Support for iOS, Android and Windows
- Simple, intuitive user interface
- Full HD 1080p60 video streaming
- iOS mirroring for VIA Collage
- Multi-lingual support
- Powerful security tools: user authentication, 1024-bit encryption, dynamic room codes

VIA Collage

Ideal for complex meeting spaces

The award-winning VIA Collage is a wireless presentation & collaboration solution that lets you show six user screens on one main display or 12 screens on two displays. With any laptop or mobile device, users can share any size files and stream uninterrupted full HD video (up to 1080p60). VIA Collage also features iOS mirroring.

Meeting participants can view the main display on their own device. The solution lets users connect remotely and collaborate on documents with 3rd-party video conferencing and office apps.

VIA Connect PRO

Designed for mid-sized meeting rooms and huddle spaces

VIA Connect PRO is a wireless presentation & collaboration solution that can show up to four user screens on a single main display. With any laptop or mobile device, meeting participants can share any size files, annotate with a whiteboard and chat with other users. VIA Connect PRO lets users stream full uninterrupted HD video (up to 1080p60).

Features and Benefits

Wireless Connection
Connect wirelessly with your own device. No dongle needed.

Enable Control
Give a participant control over a presenter's MAC® or PC laptop
